Please provide certified copies of all records related to ASBESTOS at the former El Paso Products Company facility in Odessa, TX. This was a large complex of multiple plants and approximately 50 buildings, much of which was demolished by Flint Hills Resources in 2014-2015. Two plants still remain on the former El Paso site: REXtac APAO petrochemical production plant (owned by REXtac LLC and located at 2501 S Grandview Ave Odessa, TX 79766), and the Odessa-Ector power plant/generating station (owned by ODESSA-ECTOR POWER PARTNERS, LP and located at 2200 EAST I-20, Service Road South ODESSA, TX 79766).

Since this complex housed multiple plants/buildings, I have attached a photo of the footprint of the El Paso complex before and after the demolition project.

We seek all records related to asbestos at this location, including asbestos abatement notifications, abatement permits, asbestos violations, asbestos inspections, records of asbestos contamination, or any other records of asbestos being present at this location.

I have attached data downloaded from the EPA website for the sites within the footprint of the El Paso complex as well.

EPA-R6-2021-002586	Request	Mr. William Clark	Foley & Mansfield	This request is not limited to any specific time period. This is a commercial request. We are willing to pay up to \$300 in fees. I am trying to understand the rationale behind EPA's risk assessments for atrazine, specifically how they determine that the carcinogenic effects in rodents are not relevant to humans. However, many of the citations in the risk assessments are study documents that are not publicly available, so I can't evaluate the underlying data or see how conclusions were drawn.

These are the documents requested:

**MRID 45471002, Minnema 2001

**MRID 45622309, Minnema 2002

**MRID 44152102, Morseth 1996

**Internal Report: Evaluation of Effects of the Chlorotriazine Herbicide Atrazine on the Amplitude of the Pre-ovulatory LH Surge in the Long Evans Rat. Memorandum dated July 8, 2010 from Ralph Cooper, NHEERL/ORD to Elizabeth Mendez, HED

**MRID 47972801, Coder 2010

**Internal report numbers WIL-639072, WIL-639062, WIL-639062 from Coder 2010.

Original request:

"The 2017/2018/2019/2020/2021 EPA Permit Application and all supporting documents including letters, emails, etc... from the City of Kodiak, Alaska, US Coast Guard and any other individuals and/or parties requesting and allowing the City of Kodiak to sink the Vessel Wild Alaskan aka vessel disposal at sea permit."

On August 15, 2021, per requestor approval the above submitted request was modified to:
All permit applications, submissions, letters, and other correspondence between the City of Kodiak, Alaska and EPA that mention or discuss the ocean disposal of the Wild Alaskan vessel.

The time period covered by the request is August 7, 2020 - July 8, 2021.

(Note: August 7, 2020 was the first date that the City of Kodiak communicated with EPA regarding its proposed use of the MPRSA general permit published in the federal regulations at 40 CFR 229.3 to dispose of the Wild Alaskan in ocean waters. The vessel was scuttled on July 8, 2021.)

The request seeks external correspondence between EPA staff and City of Kodiak, Alaska staff.

The request excludes correspondence with the U.S. Coast Guard.

Hello,

Through this request, I would like to obtain the following, for the entire United States, in Excel or other spreadsheet format:

List of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Information I would like is:

ID number
region
site name
location address
location city
location state
location zip code

The EPA facility listing of the more than 120,000 locations contaminated with a class of toxic "forever chemicals", for the entire United States, in spreadsheet format.

The EPA describes its list as "facilities in industries that may be handling PFAS". Most of the facilities are described as "active"; several thousand are listed as "inactive" and many others show no indication of such status. PFAS are often referred to as "forever chemicals" due to their longevity in the environment, thus even sites that are no longer actively discharging pollutants can still be a problem, according to the EPA.

Information I would like includes:

To whom it may concern in the Environmental Protection Agency,

Under the Freedom of Information Act (FOIA), I am requesting information relating to:

The use of acid " acidizing " in fracking across Texas between the years of 2010 and 2020 and how much of the acids " typically hydrochloric, acetic, or hydrofluoric " is then put back into the ground.
 What specific acids are used in acidizing in Texas and are they the same or similar to what may be used in other states or fracking sites across the United States.

As the FOIA requires, I ask that you please release all reasonably segregable nonexempt portions of documents.

In order to assess fees for the release of the documents, please note that I am requesting this information for a project in an attempt to learn more about the effects of fracking in states like Texas where some aspects of fracking may be unregulated or scarcely reported on.

The project is for a college class so information given will not be released to the public but only shared with other group members and my professor.

The FOIA also requires a response within 20 business days. If you deny my request I ask that you provide information as to why the request could not be fulfilled.

I request a list of investigations closed by EPA's Office of Inspector General between Oct. 1 through Oct. 31, 2021.

Any Class VI injection well permit applications (including appendices, attachments, and all related materials) that EPA has received in the past 12 months requesting authorization under EPA's Underground Injection Control ("UIC") program for geologic sequestration of carbon dioxide in any state within EPA Region 5.

I am looking for documentation regarding the SEMS listing for the following property:
 3890 ABERDEEN AVE, HANDE 481, KIRTLAND
 ALBUQUERQUE, NM 87117

Any site inspection, remediation plans, investigations conducted, or closure letters issued regarding the site's status on the SEMS database.

I would like to request a list of the 77 companies filing oil spill response and contingency plans in the state of Alaska under the Alaska Department of Environmental Conservation. There are currently 131 active plans for 77 companies in the state of Alaska.

Here is what I found out about it:</p> <p>In June 2021, the Environmental Protection Agency (EPA) conducted unannounced sampling at seven stormwater outfalls to Nahant Bay, including from Stacey Brook, Floating Bridge Pond, Sluice Pond, Flax Pond, Strawberry Brook, and the Saugus River. The agency found elevated levels of ammonia, chlorine, and bacteria in the majority of the samples, as well as the presence of personal and household products.</p> <p>Because of the sampling results and the frequent closure of King's Beach last summer, the EPA sent a letter to the Lynn Water & Sewer Commission (LWSC) dated Sep. 27 with additional requirements regarding illicit discharges to the beach.</p> <p>This information is important to the public as Lynn residents need to know about EPA findings.</p>	10/20/2021	Closed	12/16/2021

seq., and the U.S. Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENCY GLOBAL INC. hereby requests from EPA copies of all documents in the registration jacket for Verdant Technologies, LLC's product CR206 (EPA Reg. No. 93197-2; alternate brand name Harvesthold™ Fresh). This request includes Data Evaluation Reports (DER) and data reviews.

Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request.

COGENCY GLOBAL INC. is first and foremost interested in receiving any documents that do not contain confidential business information (CBI) as soon as possible. COGENCY GLOBAL INC. understands that some of the documents responsive to this request may contain CBI. COGENCY GLOBAL INC. requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible.

If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. COGENCY GLOBAL INC. consents to such deletion at this time to facilitate your prompt response and in no way waives our right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information.

COGENCY GLOBAL INC. requests that you provide us with accurate copies or a complete and accurate account of the information requested.

I thought my questions were pretty straightforward, but I will elaborate for you.

How many US dollars were defunded from the EPA between January 20, 2017 and January 20, 2021?

During President Trump's tenure in office, January 20, 2017 - January 20, 2021, what regulations were removed in the EPA? Please name and explain them.

During President Trump's tenure in office, January 20, 2017 - January 20, 2021, what EPA regulations were amended or ratified which allowed more of a pollutant(s) and which types of pollution had their allowable amount raised?

Please name what carcinogens, and please show the old established standards compared to the updated ones during this time frame.

During President Trump's tenure in office, January 20, 2017 - January 20, 2021, what EPA regulations were added, if any, which lowered the allowable amount of any various pollutants?

During President Trump's tenure in office, January 20, 2017 - January 20, 2021, what standards relating carcinogenic pollution were updated to allow more pollution?

During Trump's presidency, compared toward the end of it, did the average American citizen's chances of getting cancer go up or down?

Regarding the water regulations between January 20, 2017 to January 20, 2021, what regulations were repealed, what was updated, and was anything added?

Please explain the details.

☒

During Trump's presidency January 20, 2017 to January 20, 2021 what EPA recognized pollutants were removed from the recognized pollutants list? Why? Are they carcinogenic?

During Biden's presidency so far, has Biden put any EPA regulations put into place that restore measure(s) that were repealed during Trump's presidency? If so, please name them, explain them, and the date.

Freedom of Information Act Request

Dear Regional Freedom of Information Officer:

This is a request for information under the Freedom of Information Act, 5 U.S.C. Â§ 552.

I am writing on behalf the Sierra Club to request certain applicability determinations (or comfort letters) relating to pyrolysis/combustion units issued by EPA or otherwise in its possession (e.g., issued by a state but copied to EPA). Additionally, the Sierra Club is requesting a copy of any correspondence between March 1, 2013, (i.e., the date EPA changed email services from Lotus Notes to Outlook) and the date of this request with non-EPA parties (including state/local/tribal agencies and private entities/personnel) concerning the applicability of Clean Air Act section 129 to proposed or existing gasification units.

The Sierra Club requests that any fees associated with this request be waived because disclosure of the requested records is in the public interest because it is likely to contribute significantly to public understanding of the operations and activities of the Government and is not primarily in the commercial interest of the requester. 5 U.S.C. 552(a)(4)(A)(iii); see also 40 C.F.R. Â§ 2.107(1)(I). The information requested is in the public interest because it will allow the public to gain a better understanding of EPA's potential future regulation addressing pyrolysis and gasification units under Clean Air Act section 129. See 86 Fed. Reg. 50296 (Sept. 8, 2021).

I would like to request RCRA compliance files and inspection reports, including CORRACTS evaluation reports, for 2734 Hickory Grove Road, Davenport, IA 52804. It may be listed as LITTON INSTRUMENTS & LIFE SUPPORT or COBHAM or CARLETON LIFE SUPPORT SYSTEMS INC. RCRA ID: IAD005268420 (may also have other RCRA IDs for previous owners). Compliance information starts prior to 1983 based on database information available to date.

I would also like to request any information related to soil or groundwater assessment at the Site.

generator status (LQG, SQG, etc), NPL, Delisted NPL, etc. for the following address:
 2700 North Broadway Street
 Red Oak IA 51566
 Known RCRA identification numbers associated with this address:
 IAD980632509 and IAD041107871
 Known occupant names (current and former): American Hydraulics, Douglas & Lomason Company, Romech dba Automotive Seating of America, MI Development Inc. Magna International.
 The main reason for my request is to obtain the following specific information:
 This address was identified on environmental databases that indicated that the facility has/is a RCRA generator (and possibly storage also) that took their waste to the Red Oak Landfill which ended up being a CERCLA site (closed status). I am hoping to find the following out from these records:
 1) I would like to see the types of wastes that this facility contributed to the Red Oak Landfill (they were listed as a PRP for the Red Oak Landfill's CERCLA listing).
 2) It appears that the facility address itself was also identified on CERLCA listings. Was the additional CERCLA listing for this address related to disposing at Red Oak Landfill or was the site itself at 2700 North Broadway also considered for CERCLA consideration?
 3) Was there ever any type of investigation performed at the 2700 North Broadway site?
 4) It appears that the facility was listed as a storage unit by the current occupant, American Hydraulics, and prior owners as described above. I am hoping to find out if this was done in error or if the facility at 2700 is a storage facility.
 5) I would like to specifically see the RCRA hazardous biennial report from 2009, but am requesting all years if possible.

Under the Freedom of Information Act, 5 U.S.C. subsection 552, I am requesting a spreadsheet or comparable database of all excess emissions reports "including those due to upsets, startups, shutdowns, and malfunctions" submitted to the EPA since January 1, 2000.

Facilities are required to submit notification of excess emission events as described under 40 CFR Â§ 60.7, 40 CFR Â§ 77, and 40 CFR Â§ 60 among other statutes. The notices are typically filed with the EPA through the Compliance and Emissions Data Reporting Interface, or CEDRI.

At a minimum, the information provided must include the following details:

- Name and unique identifier for the facility
- Date emission report was submitted
- Date of emission occurrence
- Quantity of total emissions
- Type of primary pollutant
- Quantity of primary pollutant emissions
- Secondary pollutant
- Quantity of secondary pollutant emissions
- Cause of emission event

I prefer to receive this information as a spreadsheet (XLS, XLSX, or CSV file) but am willing to accept other machine-readable formats. If the information is not available as a spreadsheet, please contact me to discuss other options.

I am currently working a piece about algae biofuels for the international environmental news site Mongabay, and I've recently spoken with staff at the biotechnology company Synthetic Genomics, located in Southern California.

The person I spoke with said the EPA recently approved use of a GMO algae strain for outdoor production in their ponds, and I was hoping to get a copy of that approval, and any related environmental impacts statements or findings made in regard to Synthetic Genomics. The staff person said they had to test their lab-grown algae in water, air and soil, and see how it reacted, and if it contaminated the natural environment. The report was either concluded in late 2020 or early 2021.

To the Open Records Officer:

Pursuant to the federal Freedom of Information Act, I write on behalf of the Society of Professional Journalists to request a copy of the following public records from the Department of Health and Human Services:

All policies, rules, handbooks, rules, briefing statements, written guidance or other directives (collectively, "agency materials") related to the agency's employees communicating with the news media

The requested agency materials include, without limitation, any agency document that gives directions or rules on:

employee responses to media inquiries including requests for interviews or information; employees speaking or corresponding with the media;

employees giving statements, commenting, or releasing facts to the media

However, we are not asking for emails or other correspondence that occur at the time a journalist requests contact with employees.

We request a waiver of all fees for this. Disclosure of the requested information to us is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in our commercial interest. SPJ plans to issue a report on the policies of a range of agencies.

If any of the documents requested exist in electronic format, I request they be provided in electronic form.

If this records request is denied, in whole or in part, please provide me with the section of the Act on which the denial or redaction is based. In cases where a portion of the document(s) is exempt, please redact that portion and release the remainder.

Ideally, I am looking for all the RCRA files from the mid 90's to present. I will need the files from a waste disposal in 2015 and the inspection from this year as well. I believe there may also be a RCRA inspection file done by USEPA Region 7 during the aforementioned time frame -- that would be great to have. I believe the company is Nulex Inc., but in the case that it is not, please use the address to gather the documents. Thank you.</p>	10/5/2021	Closed	12/27/2021

Dear Records Officer:

Pursuant to the Illinois Freedom of Information Act, I request access to and copies of records of carbon emissions. This information is being compiled for a high school class project on the Freedom of Information Act and the ways it can be used to connect individuals with our representative government. This disclosure will very likely contribute to an understanding of government operations or activities. As this disclosure serves an educational purpose, I am requesting a fee waiver. To assist in minimizing costs, I am requesting that the information be emailed to me.

If my request is denied in whole or part, please justify all withholdings by reference to specific exemptions.

copies of specific public records in the possession of the U.S. Environmental Protection Agency (EPA) relating to two presentations made by EPA scientists.

On September 16, 2020, EPA scientist Thomas Speth prepared a presentation titled "Session 3: PFAS Treatment in Drinking Water and Wastewater" State of the Science for the PFAS Science Webinars for EPA Region 1 and State & Tribal Partners. I request copies of all underlying materials that Dr. Speth used to prepare this presentation. I am particularly interested in receiving the underlying materials used to prepare slides 14-15 of the presentation on the estimation of PFAS treatment costs, including any and all underlying case studies, Excel spreadsheets/models, data inputs/assumptions, modeled outputs/results, etc. used in the development of the presentation.

In April 2020, EPA scientists Thomas Speth, Rajiv Khera, and Craig Patterson prepared a presentation titled "Cost of POU vs. Centralized Treatment" for the Water Quality Association's annual conference. I request copies of all underlying materials that the EPA scientists used to prepare this presentation. I am particularly interested in receiving the underlying materials used to prepare slides 24-28 of the presentation on the estimation of PFAS treatment costs, including any and all underlying case studies, Excel spreadsheets/models, data inputs/assumptions, modeled outputs/results, etc. used in the development of the presentation.

If there are any fees for searching or transmitting these records, please inform me if the cost will exceed \$250. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

Hello,

I hope this finds you well. I would like information pertaining to the company Brightmark's (also known as RES Polyflow in Indiana) plastics-to-fuel plant located at 3240 W 800 S, ASHLEY, IN 46705.

A news article (<https://www.13wmaz.com/article/news/local/ceo-of-new-macon-recycling-company-brightmark-says-plant-will-have-minimal-emissions-2/93-13236708-2dba-4b99-a56a-45ae7d60a505>) reported that the company violated EPA wastewater regulations in 2021. Any information and documents you could share about this would be much appreciated.

Also, I would like to request a copy of any permits issued to the facility (I believe it was permitted as a municipal waste combustor) that fall under the EPA's purview. I would also like records of the plant's air and water emissions, from its construction/beginning of operation until the present.

I am not sure whether the plant first began operating in 2020 or 2019, but I believe it was in 2020.

Thank you very much for your assistance. If you require any additional information to complete this request, or if I should direct my questions to another office, please let me know.

Many thanks,
Jessica

All records related to EPA OIG case number OI-HQ-2019-ADM-0023.

According to the EPA OIG's semi-annual report to Congress for April 1, 2021 - September 30, 2021, "EPA OIG previously assisted state authorities in an investigation that revealed the appointee attempted to influence a state investigation while serving as a federal employee. [...] On April 6, 2021, EPA issued a notice of debarment that banned the former employee from participating in federal procurement and nonprocurement programs for a period of four years. The debarment will expire on April 9, 2023."

The semi-annual report to Congress can be found here:
https://www.epa.gov/system/files/documents/2021-12/_epaig_2021101-350-r-21-002.pdf

Please include all records related to EPA OIG's assistance with state authorities.

As used above, the term "records" includes, without limitation, all communications, correspondence, records of phone conversations, text messages, encrypted messages, messaging apps (such as Slack, Trello or Asana), transcripts of testimony, minutes or notes of meetings, electronic mail, PowerPoint or other similar presentations, memoranda, reports, maps, photographs, drawings, data, tables, spreadsheets, formulas, notes, observations, impressions, contracts, and policies or directives, whether in an electronic or print medium, original or copy, or draft or final form.

You may exclude news articles, press clippings, and duplicate emails.

I am working on a Phase I Environmental Site Assessment of the Pickens Gardens Apartment Homes located in Pickens, SC and have identified the following federally-regulated facility as a potential Recognized Environmental Condition (REC) and/or Vapor Encroachment Condition (VEC):

Facility Name: Sangamo Weston, Inc./Twelve-Mile Creek/Lake Hartwe
 Property Address: Sangamo Road, Pickens, SC 29671
 Record Type: US INST CONTROLS, SEMS, US ENG CONTROLS, NPL, RCRA NonGen/NLR
 EPA ID: SCD003354412, SEMS Site ID: 0403252, NPL/Cerclis Site ID: 403252

Last year I submitted a request for files (EPA-R4-2021-003204) and received the Area D Remedial Action Construction Completion Report, dated June 2017, and the Fourth Five-Year Review Report, dated June 2, 2020. My client is completing a Phase I ESA update for 2022. Could you tell me if any more recent records are now publicly available?

Thank you for your assistance with my request.

Golder Associates Inc. (Golder) is conducting a records review of the above referenced facility (Subject Property). This review is being conducted by Golder on behalf of our client to identify evidence of any recognized environmental conditions (RECs) that may have an adverse environmental impact upon the Subject Property.

Golder is requesting notification of any records you may have with respect to the environmental condition of the Subject Property. Records may include, but are not limited to:

- Records indicating former operations/owners
- Contamination issues in soil or groundwater
- Emergency response for leaks or spills of hazardous materials
- Monitoring well installations and/or sampling results
- Underground or aboveground storage tanks (tank abandonment, removals and closures)
- Site remediation/investigation activities
- Environmental violations
- Sewer or septic issues; issued permits
- Consultations with the U.S. Environmental Protection Agency (USEPA)
- Sites that may be classified as State Hazardous Waste sites

Any assistance from your office would be appreciated. If you have any questions or concerns regarding this request or if you need additional information, please feel free to contact me via phone at (614) 313-5866 or email at jebailey@golder.com. Please e-mail responses to jebailey@golder.com.

Vehicles and Engines. I am requesting pdf copies of all the request for information (RFI) letters that EPA has sent to companies located in Florida, Georgia, and Alabama dated after May 1, 2021.

The letters are authorized under Section 203(a) of Clean Air Act. The RFI letters begin as follows:

Pursuant to Section 208(a) of the Clean Air Act (CAA or the Act), 42 U.S.C. Â§ 7542(a), you are hereby required to provide the U.S. Environmental Protection Agency with information relating to (XXXYZ) business. The EPA is seeking this information to determine whether (XXXYZ) is in compliance with requirements of Sections 203(a) and 213(d) of the Act, 42 U.S.C. Â§Â§ 7522(a) and 7547(d), and the applicable motor vehicle and nonroad regulations at 40 C.F.R. Parts 85, 86, 89, 1036, 1037, 1039, 1051, and 1068.

I have addressed each of the 6 criteria to make this request as follows:

Factor 1. The subject of the request:

The request is specific and easily identifiable to a recent action of the EPA communication with the public.

Factor 2. The informative value of the information to be disclosed: The disclosure will contribute to the public understanding of government activities for its impact on the ambient air environment.

Factor 3. The contribution to an understanding of the subject by the public is likely to result from disclosure: The information will contribute to how EPA intends to affect ambient air quality through enforcement.

These cases regard what I believe are crimes and conspiracy to commit crimes, and have been overlooked at every level of government. They surround a \$65 million class action settlement in Delaware Superior Court Case C.A. No. S18C-06-009 which I believe is fraudulent.

My case 1298294 involves evidence of major environmental crimes for which I have sent ample evidence, including satellite imagery, photographs, my research, and a list of multiple locations that has reached as high as Mark Pollins, Director, Water Enforcement Division, and Rick Rogers, Chair, Associate Director Office of Drinking Water and Source Water Protection EPA Region 3. My last communication from Mr. Pollins, via email sent Apr 29, 2021, 3:09 PM, stating, "Don, I just want to let you know that Rick and I met this afternoon and discussed the material you sent. We are providing the information to the appropriate federal officials. Please keep us informed if possible." Mr. Pollins is the top enforcement officer within the federal government. Unless he forward it to a criminal division to investigate, there is no one above him.

I replied to both in a Sun, May 2, 9:45 AM email from dtburdick@gmail.com inquiring who he forward it to. I received no response from Mr. Pollins and a reply stating Mr. Rogers is on vacation.

For each case I want:

The status (e.g. open, closed, etc.), name, title, and contact information for each government employee involved, all emails, summary of all phone calls, meeting minutes, and what was done to resolve the cases. I would like to know who performed onsite inspections, their title, when they performed them, and a report of the outcome.

financial statements and other documents in the possession of USEPA concerning how USEPA has used/dispersed funds from the 2010 Tronox Environmental Settlement Agreement and the 2014 Tronox Bankruptcy Settlement (collectively, the "Settlements") at the following sites:

- Ship Rock Mill, New Mexico
- Dubach, Louisiana

Documents of interest include financial statements and quarterly/annual reports discussing the receipt and disbursement of funds from the Settlements and e-mail, correspondence, and reports concerning the use of Settlement funds at the sites. Please note I am only interested in material relating to financial matters and am not interested in material related to site remediation.

For additional information on the sites please see the 2010 Notice of Lodging of Proposed Consent Decree and Environmental Settlement Agreement from the U.S. Bankruptcy Court, Southern District of New York.

Per my investigation of the settlement documents, funds were distributed to USEPA Headquarters Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$200. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to us. We are requesting documents from the Delaware Valley Works (DVW) Site in Claymont, Delaware relating to the remedial design for capping of nearshore sediments in the Delaware River from 2010 to 2021.

The referenced request is specifically for an email search in USEPA's air quality permitting, compliance, and enforcement department files, especially Region 3, that contain subject content including PFAS, AFPO, FPM, PTFE Fabrication, or VOCs as well as the name Gore and Cherry Hill. The facility name and address are W. L. Gore & Associates - Cherry Hill Plant, 2401 Singerly Road, Elkton, MD 21921.

The response to my prior FOIA request (EPA-R3-2021-006390) did not contain any requested email correspondence.

We have asked Eurofins and Eric S. Bodle, PhD General Manager answer us:

"I wish I were able to help with your request however, we are not the owners of the data that you have requested below. As a contract lab, we conduct the research but do not maintain any rights to the information. This remains the property of the company that contracted the work to us. In addition, these studies are extremely old and very unlikely we have access to them any longer as all information and data would have been transferred to the owning company."

These studies referred on a review of urea prepared by Ibrahim Abdel-Saheb & Sid Abel of EFED/ERBII on October 22 of 2001.

Could you please help us on how we can get access to these studies or the EPA's review (Data Evaluation Record) if that is possible.

Under the Freedom of Information Act, I am requesting electronic records of CO2 emissions data for heavy-duty vehicles and compliance with the Greenhouse Gas Emissions Standards for Medium- and Heavy-Duty Engines and Vehicles.

While I am aware of the "Annual Certification Data for Vehicles, Engines, and Equipment" page that contains "lowest projected CO2 FEL (g/ton-mile)" and "highest projected CO2 FEL (g/ton-mile)" by vehicle family, subcategory, and year, I am looking for any of the following data:

- Estimated CO2 (g/ton-mile) for every vehicle configuration sold in each vehicle family and subcategory by year.
- Estimated CO2 (g/ton-mile) for the most common vehicle configuration(s) sold in each vehicle family and subcategory by year.
- Average estimated CO2 (g/ton-mile) by vehicle family and subcategory by year (i.e., a weighted average across configurations).
- Results from the Greenhouse Gas Emissions Model (GEM) for Medium- and Heavy-Duty Vehicle Compliance submitted by manufacturers.
- Compliance with the standard at the year-manufacturer-vehicle subcategory level.
- Any fines levied for failure to comply with the standard.

I can receive these data in any standard data format—for example, ASCII fixed-column or tab-delimited. File size is not a constraint on my end. The data could be transferred by FTP, internet, or via postal mailing of a CD or DVD.

Please let me know if any additional information would be useful. I hope to use these data to continue to improve my dissertation research.

Good Morning!

I would like to request additional Physical Site location details for the FOIA 11 Superfund Data Report, Document Title "Noticed Parties at Sites in SEMS". Currently this Report (<https://www.epa.gov/superfund/superfund-data-and-reports> - latest available Date 12/30/21, Document ID 401064, that file is also attached to this request) contains the following fields: Region, Site Name, EPA ID, NPL Status, Non NPL Status, Party Name, PRP Address, PRP City, PRP State, PRP Zip, Activity Date Type, Actual Complete Date, Action Type Seq, Action Abbrev. Since this file only contains the Potential Responsible Party Address details (columns G-I), and in some cases the PRP may be off-site and/or an unrelated party to the actual Site Address where the potential contamination may exist and/or has migrated to, I am interested in obtaining this same report with the additional Site Address details (the specific physical location of the site where the suspected/confirmed contamination is likely present). Can I please request the Noticed Parties at Sites in SEMS (FOIA 11) Report to include all currently available column/field details plus the additional Physical Site Address, Site City, Site State, Site Zip fields for all records in Excel format? Please let me know if you should need any other information from me. Also, if you could please let me know in advance any associated fees that may apply to fulfill this request. Thank you in advance for your time and assistance today!

Sincerely,

Jennifer Horan

EPA-2021-006292	Request	Mr. Mikalan Conrad		Hi, I'm wondering where i can find the epa's case studies and/or research that shows the environmental impacts of un restricted Diesel engines vs engines with smog control devices. It seems to me after you account for the loss of fuel efficiency, the reduced engine life/ carbon footprint of producing replacement engines, the carbon footprint of DEF production, not to mention the plastic packaging it comes in i can't imagine that under any scenario a smog controlled engine is better for the environment. Has this research even been done? Has it been considered that the "emissions" from a smog controlled engine do not simply end at the tailpipe, and that these regulations are in fact worst for the environment? I Look forward to seeing the studies that support the regulations that have cost the American people millions in fines. Thanks	8/30/2021	Closed	1/21/2022

Dear FOIA Officer:

This is a request under the Freedom of Information Act.

Hello, I am writing to initiate a FOIA request for a file (spreadsheet if possible) that contains grants awarded during FY2020 with the following fields.

Requested Fields: Name of the Principal Investigator, Federal Award ID, Title, Funding Amount, Obligation Date, and the Start and End Dates for FY-2020 grants. For your reference, the same request was made and completed last year for FY2019 grants and was assigned EPA-HQ-2020-002308.

These fields are all available at usaspending.gov except for the Principal Investigators name which is the primary reason for this request.

Thank you for your consideration of this request.

Sincerely,

Tara Adams

program (Region 9). In addition, Ms. Mimi Newton, the LUST Program Attorney has already reviewed the documents that they plan to release to my firm. Please route the request through these two individuals.

The following is a summary of the information I am looking for as part of my assessment on three facilities on the San Carlos Apache Reservation on behalf of the Bureau of Indian Affairs (BIA). Two of the facilities had USTs.

The two facilities are the Forestry Facility (formerly known as Natural Resources) at the San Carlos Airport, San Carlos, Arizona, and the Point of Pines camp, Graham County, Arizona. Both of these facilities were formerly BIA, but have been transferred to the Tribal authorities. I think I have sufficient information on the USTs at the Point of Pines, so my focus is on the Natural Resources/San Carlos Airport facility:

Forestry Facility/Natural Resources Facility

There were two USTs associated with this facility, one was removed/closed in approximately February 1999. The other one (10K) was closed in place "properly" according to the letter from the EPA. Both of these tanks are at what is called the "Tire Shop" just to the northeast of the Natural Resources building.

According to the EPA database, there are three USTs under facility No. SANC006 (a 5K gas, a 12K gas, and a 10K gas UST). There are also two additional USTs at the airport, both 6K gas USTs, under facility SANC017. All five of these tanks are listed as closed. I wonder if the two tanks under facility SANC017 are duplicates of two of the tanks under SANC006? Or are there actually five former USTs at the San Carlos Airport?? I have no closure reports for any of these tanks except the 12K tank, no maps showing locations or the map provided is not usable, and an EPA closure letter dated April 6, 1990. It references closure reports dated March 18, 1999.

I am seeking a list and details of all sites with PFAS and PFOA contamination. Previously I received these fields: Region, Site Name, Street Address, City, County, State, Zip Code, EPA ID, NPL Status Code, Superfund Alternative Agreement Flag, Federal Facility Flag, Latitude, and Longitude.

If possible, can I please receive this in electronic format?

EDIT (2/15/2021): As per Larry Johnson's email dated 2/15/2021, the mailing addressed for the parcels identified below are 3491 Hampton Road and 396-460 Brown Court, Oceanside, NY 11572. The current business names associated with these parcels are A&C Fleet Repair and Cousins Metal Industries Inc. Gering Properties Companies LLC is the current owner of the property.

To whom it may concern,

Langan Engineering, Environmental, Surveying, Landscape Architecture and Geology, D.P.C. (Langan) is conducting a Phase I Environmental Site Assessment (ESA) for five parcels located between Brown Court and Hampton Road in Oceanside, Long Island, New York. These five parcels are identified as Block 403, Lots 18, 19, 23, 24, and 27 on the Nassau County Department of Assessment's Land & Tax Map. In support of our Phase I ESA, Langan is requesting any information or copies of files regarding environmental conditions at the site, such as environmental reports, environmental permits, environmental cleanup liens, building permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs) or Aboveground Storage Tanks (ASTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.

If you have any questions or would like any additional information, please let us know. Thank you in advance!

Sincerely,
Ryan Hall

Expedited Settlement Agreements (ESA), and (3) Expedited Penalty Action and Consent Agreements from EPA Region 9 which cite any/all of the following regulations: (1) Clean Air Act Section 112(r), (2) EPCRA Section 304-312, (1) CERCLA Section 103.

The scope of this request includes all of the above mentioned documents for inspection years: 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021.

The reasons for this request are as follows: (1) The above mentioned dockets are not available on the EPA Administrative Enforcement Dockets database (<https://yosemite.epa.gov/oa/rhc/epaadmin.nsf>). All other EPA regions have made dockets available for these inspection years, but records from the abovementioned years are practically non-existent for Region 9. (2) EPA Region 9 uploaded over 600 dockets from the years 2007-2013. When making an inquiry to the email address "R9HearingClerk@epa.gov", the responder did not answer the question as to why Region 9 stopped uploading dockets when all other regions have continued, but rather said; "In general, Federal documents are available via the Freedom of Information Act (FOIA), including administrative enforcement documents. If there are specific administrative enforcement actions in which you are interested in obtaining documents, the best course of action would be to submit a FOIA request. Included below is the address of the U.S. EPA web site that contains a full description of the FOIA process and provides for the submission of FOIA requests. Thank you. <https://www.epa.gov/foia/foia-request-process>." (3) The information in this request is to be used as part of a White Paper studying the EPA's historical enforcement at ammonia refrigeration facilities around the county that will be presented at the Refrigerating Engineers and Technicians Association (RETA) and the International Institute of Ammonia Refrigeration (IIAR) national conferences in order to better educate the ammonia refrigeration industry of its liability of non-compliance.

“Sinclair” is requesting records related to the petitions that Sinclair submitted to request extensions of its small refinery exemptions from the Renewable Fuels Standards (RFS) for 2018 and 2019.

The 2018 exemption petitions (one for each of Sinclair’s two refineries) were submitted on December 21, 2018 “ by mail to Mail Code 6405A and by email to Greg Piotrowski and Janet Cohen of the Office of Transportation and Air Quality (OTAQ). The 2019 exemption petitions (one for each refinery) were submitted on October 12, 2020 “ by mail to Mail Code 6405A and by email to Byron Bunker of OTAQ. For purposes of this request, these petitions are referred to as Sinclair’s 2018 and 2019 RFS Exemption Petitions.

We believe that EPA employees Byron Bunker and Janet Cohen (of OTAQ) and Susan Stahle (of the Office of General Counsel) will have ready access to most of the records requested herein. EPA employee Joseph Goffman, Acting Assistant Administrator for Air and Radiation, and others in OAR’s front office are likely to have records responsive to Request 2 below.

In particular, Sinclair requests copies of the following:

1. Records of any communications between EPA and the Department of Energy (DOE) regarding Sinclair’s 2018 and 2019 RFS Exemption Petitions, including DOE’s “scoring matrices” and recommendations regarding whether and to what extent the Petitions should be granted.

2. Records of any and all communications regarding Sinclair and its 2018 or 2019 RFS Exemption Petitions between EPA and the following individuals or entities:

- a. The Renewable Fuels Association, its members, or its representative(s); and
- b. any other group or individual

We are trying to make sense of the ongoing situation with regards to the status of site contamination oversight at the previous Wheeling Pittsburgh Steel facility at 1001 Main Street, Martins Ferry, OH (now owned by 4K Industrial LLC). The site had other names like RG Steel and Severstal Wheeling. (See the permit number provided by Ohio EPA below.)

The Ohio EPA stated on 11/17/21: "Here is what I was able to find out from our Division of Environmental Response and Revitalization (DERR). There is not a referral record for this site. They refer sites if action is needed from USEPA and in this case USEPA was already the lead for corrective action at the former RG Steel. Ohio EPA was handling closure activity but that was assumed into the federal corrective action. As an official record, RCRAinfo indicates the Lead Agency for the site is USEPA."

Here is what we received from Jessica Langdon (cc'ed on this email) with Ohio EPA on 10/25/21: "With regards to the former Wheeling Pittsburg Steel “ Martins Ferry Facility, OHD010448231, Ohio EPA is aware of former groundwater monitoring wells that were put in place as part of Ohio EPA enforcement activities related to RCRA Closure. In May of 2020, Ohio EPA referred this facility to USEPA’s Federal RCRA program who is pursuing RCRA Corrective Action enforcement as it relates to conditions at the former Wheeling Pittsburg Steel “ Martins Ferry Facility. All files that Ohio EPA DERR has related to this site can be acquired through reviewing Ohio EPA’s online Edocs system as well as through a FOIA request."

Please provide a copy of the May 2020 referral document of the site to US EPA.

Also, please provide copies of water monitoring results documents of the site. We are aware that Wheeling Pitt Steel put in some water monitoring wells. 4K Industrial also put in monitoring wells. Please provide all monitoring results the agencies have on file.

I am writing pursuant to the Freedom of Information Act to request any and all records in your possession relating to or regarding abatement plans, inspections; citations; penalties; and any stoppage due to EPA violations for the following facility:

3M Corporation
221 Green Lane
Bristol, PA 19007

Very truly yours, Casey R Coburn
RCRAInfo:PAD000766170

This is a request under the Freedom of Information Act. I request the following:
 Any correspondence, communication memos, emails, meeting notes, faxes, letters, etc., including any of the following terms: conservation easement, Boeing, Santa Susana Field Lab, SSFL, North American Land Trust, NALT, Wildlife Habitat Council, WHC, Trust for Public Land, Land Trust Alliance, or Nature Conservancy. To narrow the scope, I request such correspondence, communication memos, emails, meeting notes, faxes, letters, etc., involving any of the following employees of the Environmental Protection Agency from January 1, 2017, up until the date this request is fulfilled:
 Frank Avvisato, EPA Superfund Redevelopment
 Bill Denman, EPA Region 4
 Melissa Friedland, EPA Superfund Redevelopment
 Scott Miller, EPA Region 4
 I request the information be provided in electronic format. If any information is denied or withheld, please provide the specific legal exemption that justifies the denial or redaction. In addition, I request the release of all reasonably segregable portions of otherwise exempt material.
 To help determine my status to assess fees, you should know that I am a reporter for Reuters News. This request is being made to gather information for news stories and not for commercial use.
 I am willing to pay fees for this request up to a maximum of \$50. If you estimate that the fees will exceed this limit, please inform me with a detailed estimate of the costs.
 Please do not hesitate to contact me at Jaimi.dowdell@tr.com or 314-402-3281 if you have any questions regarding this request.
 Sincerely,
 Jaimi Dowdell

Through this FOIA request, I am gathering vital information on the National Climate Task Force, especially on Gina McCarthy, the domestic climate advisor. It is of particular interest to get information on how the agency spends public money and whether it is doing so in compliance with federal laws.
 Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I request access to and copies of the following materials:
 The steps taken towards the draft strategic plan on climate change and environmental justice that will act as a blueprint for the next four years, as announced by EPA chief Michael Regan;
 EPA's upcoming proposals to curb oil and gas methane emissions;
 Implementation of the Paris Agreement since President Biden's decision to rejoin.
 If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act and release all segregable portions of otherwise exempt material. I reserve the right to appeal.
 As I am making this information as a daily journalist and this information is of timely value, please contact me by telephone, rather than by mail if you have questions regarding this request. My phone number is 929-413-9065. My e-mail is gmd375@nyu.edu. I look forward to your reply within 20 business days, as the statute requires.

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. Â§ 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENCY GLOBAL INC., hereby requests from EPA a copy of any document relating to the adoption of Pesticide Registration (PR) Notice 96-3, "Pesticide Products Used to Disinsect Aircraft," dated May 14, 1996. Specifically, COGENCY GLOBAL INC. requests from EPA a copy of any background document, including but not limited to comments submitted to docket number OPP-00403 and the cost-benefit analysis that led to the adoption of PR Notice 96-3. These documents may include letters, e-mails, facsimiles, telephone conversation logs, notes, meeting minutes or summaries of any meetings with EPA, memoranda, comments, presentations, petitions, and related written materials.

Documents responsive to this request likely will be maintained by EPA's Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request.

COGENCY GLOBAL INC. understands that some of the documents responsive to this request may have to undergo confidential business information (CBI) review. COGENCY GLOBAL INC. requests that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible.

If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. COGENCY GLOBAL INC. consents to such deletion at this time to facilitate your prompt response and in no way waives

I am writing to request copies of any and all communications to and or from the United States Environmental Protection Agency, and dated on or after January 2, 2021, that mention me, Laura Green, in any way.

As I understand it, based on several recent defamatory newspaper articles about me, an EPA "spokesperson" has been communicating, orally and in writing, with at least two E&ENews Greenwire reporters, in such a way as to have damaged my scientific reputation and interfered with my consulting practice and consulting income.

By way of example, one such article may be found here:
<https://www.eenews.net/articles/epa-linked-consultant-undercuts-agencys-pfas-concerns/>.

I have repeatedly asked U.S. EPA officials for copies of the emails referenced in this article, but have been rebuffed.

Similarly, I have repeatedly asked U.S. EPA officials for the identity of this spokesperson (or perhaps spokespeople), but have been rebuffed.

Accordingly, I hereby request any and all communications, including emails, letters, notes of telephone conversations, and any other communications, from EV Crunden and/or Ariel Wittenberg, to U.S. EPA, and from U.S. EPA (in each case, including through its officers, employees or other representatives) to EV Crunden and/or Ariel Wittenberg.

Without limiting the generality of the foregoing, the email addresses of these individuals which are known to me are as follow: Ariel Wittenberg: awittenberg@eenews.net; Ev Crunden: ecrunden@eenews.net.
 I request all records related to EPA Deputy Administrator Janet McCabe's schedule from Nov. 1 to Dec. 1, 2021.

Please include all records that document McCabe's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables.

Dear Sir or Madam,

I hope this message finds you well.

This is Ivy Zhang from REACH24H Consulting Group. Recently we plan to apply for a NaCl Capsule registration to EPA, we would like to the application dossier packages and data matrix for the product with NaCl, there are GENEON MINERAL ELECTROLYTE (EPA Registration Number: 91112-2) and FORCE OF NATURE ACTIVATOR CAPSULE (EPA Registration Number: 93040-1).

Could you kindly please send the application dossier packages and data matrix documents for that registration to me? So that we could figure out which data we could cite.

Thank you very much and looking forward for your feedback.

Kind regards,
 Ivy

EPA-R2-2021-002578	Request	Eva Gomez		I'm interested in the analytic sample soil data for Superfund Site NYD0002455756, FRS ID 110009260726 (Consolidated Iron and Metal) in the city of Newburgh in Orange County, N.Y. I have reviewed the reports which are available on the EPA Superfund and Echo sites, however, they only provide data on groundwater contamination and I am interested in soil data more specifically. This is unavailable in the reports. Under the Freedom of Information Act (FOIA) (5 U.S.C. & section 552), we request the following information located within the Antimicrobial Division of the Office of Pesticide Programs at the U.S. Environmental Protection Agency (U.S. EPA). We ask for the registration jacket, including data matrices, for the registered pesticide product "Bio5700" (EPA Reg. No. 98159-1). Please include 8570 forms, registration materials and correspondence submitted by the applicant and registrant, BioSafe90, LLC, any internal documents prepared by EPA evaluating the registration application, including memoranda, Data Evaluation Reviews, and decision documents, and any other related correspondence and documents. We agree to pay reasonable search and reproduction costs for this information. Should the cost exceed \$500, please provide us an estimate of the cost and contact us for authorization. Your prompt attention to this request is appreciated.	2/11/2021	Processing Tasks

This letter constitutes a request under the Freedom of Information Act (â€œFOIAâ€) 5 U.S.C. Â§ 552. We request that the Environmental Protection Agency (â€œEPAâ€) provide copies of public records and correspondence concerning the Consent Decree entered among the United States of America, on behalf of the EPA, and the Louisiana Department of Environmental Quality (â€œLDEQâ€)(the â€œPlaintiffsâ€) and The Dow Chemical Company (â€œDowâ€) Performance Materials NA, Inc., and Union Carbide Corporation (herein â€œDefendantsâ€) in connection with Civil Action No. 2:21-cv-00114 filed on January 19, 2021 (the â€œConsent Decreeâ€)

By way of background, Defendants own and operate petrochemical manufacturing facilities in Texas and Louisiana. The United States of America, on behalf of the EPA, and the LDEQ filed a Complaint and concurrently entered into the Consent Decree with Defendants for alleged violations of the Clean Air Act and the Louisiana Environmental Quality Act at facilities owned or operated by Defendants. As part of the Consent Decree, Defendants agreed to several compliance requirements and measures to reduce emissions of air pollutants, including installing flare gas recovery systems on certain flares located at their facilities.

We request the following records:

1. All communications the EPA, its agents, contractors, or representatives exchanged with Defendants concerning the Consent Decree and Dowâ€™s Freeport, Texas facility;
2. All analyses performed by the EPA, its agents, contractors, or representatives concerning the air emissions at Dowâ€™s Freeport, Texas facility;

Order 4711 data broken down by date, number, type and gender:
 -Type of harassment:
 race, color, sex (including pregnancy, sex stereotyping, gender identity or expression), national origin, religion, age, disability, prior protected Equal Employment Opportunity activity, sexual orientation, status as a parent, marital status, political affiliation, and protected genetic information.
 -Specify if 4711 charge was brought by management or staff
 -Gender of person charged
 -Number removed from Agency

Pursuant to the Freedom of Information Act, I hereby request the following records:

A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. Please search your records from June 1, 2021 to the current date.

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties.

The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations.

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of an EPA official during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process.

EPA-2021-006435	Request	Sabrina Jay		<p>Seresto Collars : (2) how many cases of heart problems have you received to date. I have a boxer that was just diagnosed with AV heart block and needs a pacemaker. I put this collar on him at the beginning of July. On Saturday, 8/28, I gave him a bath and left the collar on while bathing. Monday evening, he dropped 4 times. Immediately took the collar off and took him to a local ER clinic. The following morning, I drove him to MU Small Animal ER in Columbia MO. We have done other diagnostic testing to rule out the AV block being secondary to something else. Tuesday 8/31 he had 2 episodes (1 am & 1 pm); Wednesday 9/1 he had 4 AM (2 were slight) & 1 PM; Yesterday, Thursday 9/2 he had NONE and so far today, he has had none. The collars were purchased directly from my regular DVM's online ordering. SECOND ISSUE with a different dog : My older boxer ended up with a head tilt 3-4 days AFTER putting this collar on her. Again, I immediately took the collar off of her. I am now really suspicious of the Seresto collar causing the issues.</p> <p>NOTE - I previously emailed EPA and was told to request information online. Please send ALL reported side effects that have been reported but especially any related to the heart and liver. I understand there is contact information that can not be included in the report. Please rush the report. I need to see if there has been heart issues reported.</p> <p>If you have any questions, please feel free to call anytime. Email report is fine. 				<p>This is a request under the Freedom of Information Act for non-confidential copies of the U.S. Environmental Protection Agency's Data Evaluation Reviews ("DERs") of any studies submitted in support of the disinfectant registered to Innovasource and assigned EPA Registration Number: 85837-4. We are especially interested in DERs created for EPA's review of EPA Guideline Series 830 studies, including but not limited to: storage stability; corrosion characteristics, stability to normal and elevated temperatures, metals, metal ions; oxidation/reduction and chemical incompatibility. These studies were submitted in support of the product registration pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA"). Please also advise as soon as possible as to the product recipe that was submitted pursuant to the registration process.</p> <p>I do not seek copies of studies or any other written material considered confidential business information ("CBI"). However, we would accept copies of documents that have been redacted to remove such CBI.</p> <p>Please contact me as soon as possible if processing fees will exceed \$500. If the scope of this request is such that you expect unreasonable delay in processing it, please contact me immediately to reach an agreement upon a schedule for responding in installments. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I am requesting copies of any and all communications from 1996-1998 that pertain to seven Environmental Protection Agency (EPA) Climate Change fact sheets published in 1997 and 1998.

Specifically, I am requesting a copy of correspondence and communications, emails included, between state or local agencies and the EPA, as well as any intra-agency communications associated with the production of seven EPA Climate Change fact sheets. Three of these fact sheets were published in 1997 for the states of California, Delaware, and New Jersey, and four were published in 1998 for the states of Hawaii, Maryland, Rhode Island, and South Carolina. Each fact sheet discusses current and anticipated impacts of human activities, such as increased greenhouse gas emissions, on climate change at local, national, and global levels. Given their state specificities, any related state and local agencies' communications with the EPA, or intra-agency communications, are of particular interest.

--------------------	---------	------------	--------------------------------------	--	-----------	------------------

This request is made on behalf of myself under the Freedom of Information Act (FOIA) 5 U.S.C. § 552.

I am currently a developmental neurotoxicologist and private citizen working on a project that aims to support the transition from animal-based testing to the use of alternative non-animal testing methods for assessing the potential developmental neurotoxicity hazards of chemicals. I have conducted research developmental neurotoxicity research for more than 40 years. My publication record includes more than 150 peer-reviewed journal articles, book chapters, and government reports (e.g., ORCID ID: 0000-0003-1749-9971). The overall goals of this project are to: 1) facilitate the development of non-animal alternative models for development neurotoxicity by informing the comparison to in vivo results from regulatory driven testing; and 2) make the data and findings publicly available by publication in a peer reviewed journal or other publicly accessible format. I note that this goal is in line with the previous Administrator Andrew Wheeler's statement on 09/10/2019 to reduce animal testing by 30% in 2025.

This request is a reiteration of previous requests (FOIA request EPA-2020-003946) for Data Evaluation Records/Reviews (DERs) for some developmental neurotoxicity studies. The released material in response to these requests were not DERs but instead memo that mentioned the DERs. The attached list provides for seven chemicals, the original request, the released material, notes on the released material, and a new request for the specific DER.

Re: Freedom of Information Act Request

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. § 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENY GLOBAL INC. hereby requests from EPA copies of any and all documents submitted to EPA under the Federal Insecticide, Fungicide, and Rodenticide Act, Section 6(a)(2) in the past five years concerning wood preservatives and any structures treated with wood preservatives. These documents may include voluntary incident reporting forms and reported adverse effect information, including reports of incidents of harmful effects resulting from the use of wood preservative products and new information derived from scientific studies on wood preservatives.

Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request.

However, the system will not take our passphrase when we try to download a copy. (It accepts the passphrase just fine when we set it up to do the annual filing.) We had the same issue with the 2019 filing and were directed from the help center to request a mailed copy. We have once again contacted the help desk and they again said our only option is to request a paper copy. Accordingly, we are requesting you please send a full hardcopy of our accepted 2020 filing.</p>	5/19/2021	Processing Tasks

for Environmental Responsibility (PEER) requests certain information from the Environmental Protection Agency (EPA). Specifically, we request: Since January 1, 2012, all documents and communications that responded to any requirement by the Office of Pesticide Programs for any pesticide registrant to submit product performance data, on a case-by-case basis, for any pesticide product registered or proposed for registration, under 40 CFR sec. 158.400(e)(1).
 Exclude from this request information provided in response to PEER's related request filed on Dec. 30, 2021, with tracking number EPA-2022-001678A, which separately seeks all such data that EPA received in response to the July 22, 2013, letter from Steven Bradbury, Director, Office of Pesticide Programs, to the Registrants of Nitroguanidine Neonicotinoid Products," with the subject line "Registered Products Containing Imidacloprid, Dinotefuran, Clothianidin or Thiamethoxam" the 2013 Bradbury letter available at this link http://www.centerforfoodsafety.org/files/epa-7-22-13-registrant-letter_87086.pdf.

Also exclude from this request any data produced for any cases, per 40 CFR sec. 158.400(e)(1), in which a pesticide product bears a claim to control pest microorganisms that pose a threat to human health and whose presence cannot readily be observed by the user including, but not limited to, microorganisms infectious to man in any area of the inanimate environment, or a claim to control vertebrates (such as rodents, birds, bats, canids, and skunks) that may directly or indirectly transmit diseases to humans.

Note: 40 CFR sec. 158.400(e)(1), provides (the data in the last sentence is the subject of this request): The Agency has waived the requirement to submit product performance data unless the pesticide product bears a claim to control pest microorganisms that pose a threat to human health and whose presence cannot readily be observed by the user including, but not limited to, microorganisms infectious to man in any area of the inanimate

Historical documentation of the log file for each HTTP request for the EPA website. Ideally, this data would be at the request level and include the IP address (even if the last part is suppressed), date and time, browser and operating system used, the URL of the referring page, the requested object, the completion status of the request, and the pages visited. This data is collected through google analytics and should not contain any personally identifiable information. This data should span as much time as possible (with a start date ideally before the implementation of ECHO in 2002). Additionally, I would like to know the history of the development of the online access tool for information about inspections and violations. For example, when was it first implemented, what type of information was available then, and how did that change over time, what are the major changes to the system and when were they made, etc. I would like to be provided with those documents in electronic (spreadsheet for the data) form, if possible. Also, please don't hesitate to reach out if you have any questions. In order to help to determine my status to assess fees, you should know that I am affiliated with an educational institution, and this request is made for a scientific purpose and not for a commercial use.

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I am requesting records related to the Environmental Protection Agency's deletion and proposed deletion of sites from the Superfund National Priorities List. I am requesting all correspondence related to site deletion between any EPA personnel whether at Headquarters, a regional office, or any other office and any External Party including Emails, letters, memos, directives. For the purposes of this request, "External Party" includes any person or entity who is not a part of a federal executive agency. This request includes correspondence where an External Party is the sender or appears anywhere among the recipients, including as a "cc" or "bcc" recipient. I am requesting correspondence between Jan. 1, 2017 until the date when the records are produced. Since some of the documents listed above may be more readily available than others, please provide the documents that are available as soon as possible without waiting to provide access to all the documents. Please provide the records in electronic format.

I am making this request as a reporter with The Associated Press and this request is made as part of newsgathering and not for commercial use. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. I ask that you waive any and all applicable fees associated with this request. Release of this information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If you deny this request for a fee waiver, please advise me in advance of the estimated charges if they are to exceed \$100. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act.

Re: Request for Natural Gas STAR Program Implementation Plans

Dear Chief FOIA Officer:

I am a reporter for The Center for Investigative Reporting (â€œCIRâ€œ), the oldest non-profit investigative newsroom in the country. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552, I request the following records:

Natural Gas STAR Program implementation plans submitted by any current and former program partners to the Environmental Protection Agency from January 1, 2010 through to September 30, 2021. Respondent records should include implementation plans from all segments of the oil and natural gas industry, including but not be limited to Production Segment, Transmission Segment, Distribution Segment, and Gathering and Processing Segment.

The Natural Gas STAR Program Partnership Agreement between the EPA and oil and natural gas program participants states that program partners agree to â€œonly share non-Confidential Business Informationâ€œ and that information submitted is â€œsubject to the Freedom of Information Act.â€œ

Find attached copies of the Natural Gas STAR Program Partnership Agreement and copies of the current example implementation plans for the oil and natural gas industry segments downloaded from the Natural Gas STAR program webpage on September 27, 2021. Additionally, find attached a copy of this request in letter format.

Re: 1297-1299 West Broad Street (Formerly Ross & Roberts) located in Stratford, CT

To whom it may concern,

Hygenix, Inc is conducting an environmental search of the above-mentioned property in Stratford, CT. Through our research, Hygenix found that this property was considered the National Priorities List (NPL) and it didn't qualify based upon existing information. The Connecticut Department of Energy & Environmental Protection (CT DEEP) indicated that there was a preliminary investigation or remediation report conducted by the EPA. Is it possible to receive a copy of this report and any others that may be on file?

Thank you for your time and assistance on this matter.

In responses to previous FOIA requests, I have received EPA's congressional correspondence logs that identify specific pieces of correspondence between EPA and members of Congress by control number and congressional office. I am now requesting specific pieces of correspondence identified in those correspondence logs by control number and congressional office. Please include attachments, enclosures or any other documents that were provided with the piece(s) of correspondence in its original form.

I also request all direct agency responses to the requested piece(s) of correspondence.

I request the following piece(s) of correspondence listed by control number and congressional office:

EPA-2022-001735	Request	Mr. Alexander Guillen	POLITICO	AL-22-000-0400 Rep. Christopher Smith Because the Requestor owns the information herein requested and described below, this request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA. Accordingly, please provide the registration jackets and any and all confidential statements of formula (CSF) associated with the both of the following registration numbers: 66171-103 (PERASIDE A PEROXYACETIC ACID-BASED SANITIZER/DISINFECTANT) and 66171-104 (LIQUIDATE). EPA-2022-001479	Request	Denise Fernandez			12/16/2021	Processing Tasks

Please see attached request letter that provides background information, document locations, and enclosures for references to assist in the response.

Requested documents and records:

- 1) Document entitled: Perfluorooctanesulfonyl fluoride: information review EPA 560/ITC/83-0224, dated September 22, 1983 "Working Draft" published by CRCS, Inc., prepared by CRCS, Inc. in collaboration with Dynamac Corporation under EPA Contract no. 68-01-6650 for the TSCA ITC. See attached EPA National Library Catalog entry showing a copy is located in the OCSPP Chemical Library in Washington DC.
- 2) Because the document in item #1 appears to be a working draft, I am requesting any other documents associated with the information review and determinations concerning POSF that were prepared by either Dynamac Corporation, CRCS, Inc., or USEPA during the ITC review process in 1982 to 1985, especially the final disposition or report on POSF that resulted from the ITC process even if that report was issued after 1985.
- 3) Any information about POSF that the manufacturer 3M provided to the ITC directly in 1982 " 1985.
- 4) Any information that Dynamac Corporation and CRCS, Inc. provided to the ITC about the manufacturer 3M or POSF in 1982 " 1985.

As noted, please see attached request letter that provides background information, document locations, and enclosures for references to assist in the response.

Pursuant to the Freedom of Information Act (5 U.S.C. § 552), and the implementing regulations of the United States Environmental Protection Agency (EPA), I request the following:

1. A copy of the scores assigned by the United States Department of Energy on all petitions for an extension of the Small Refinery Exemption from 2015 to the present day. I understand that the requested records may contain Confidential Business Information (CBI) information. We are not seeking CBI material or the identity of the small refineries. We seek only the final scores (i.e. a 0%, 50%, or 100% recommendation) the Department of Energy (DOE) provided. If you contend that the requested records cannot be disclosed, please provide the basis for such a claim as soon as possible.
2. Communication between the EPA and the DOE regarding the concept of compliance cost and/or Renewable Information Number (RIN) pass-through. We seek communications related to EPA's current proposed Notice of Opportunity To Comment on Proposed Denial of Petitions for Small Refinery Exemptions, Docket ID No. EPA-HQ-OAR-2021-0566. Additionally, we seek communications from January 1, 2015 to the present on this issue, including communications between John Powell at the Department of Energy and the EPA.
3. Communication between the Office of Air and Radiation and Paul Argyropoulos or Jim Massey from May 2018 to present regarding the Renewable Fuel Standard.

Please note that this request is time critical, and therefore I request that EPA respond as promptly as possible within the time limits set out in the FOIA. I confirm in advance my willingness to pay for all reasonable costs associated with this request. However, should these costs exceed \$3,000, I ask that you contact me prior to proceeding.

Documents of interest include financial statements and quarterly/annual reports discussing the receipt and disbursement of funds from the Settlements and e-mail, correspondence, and reports concerning the use of Settlement funds at the sites. Please note I am only interested in material relating to financial matters and am not interested in material related to site remediation.

For additional information on the sites please see the 2010 Notice of Lodging of Proposed Consent Decree and Environmental Settlement Agreement from the U.S. Bankruptcy Court, Southern District of New York.

Per my investigation of the settlement documents, funds were distributed to USEPA Headquarters Division.

If there are any fees for searching or copying these records, please inform me if the cost will exceed \$200. I would request a prompt response to this request. If you expect a significant delay in responding to or in fulfilling this request, please contact me with information about

To Whom it May Concern,

Please accept this request for records pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. 552 et seq., on behalf of the Climate Investigations Center (CIC). This request focuses on documents describing the current planning of a nationwide high pressure carbon dioxide (CO2) pipeline network and the EPA's role in this process. CIC makes this request also in light of the Center for Environmental Quality's (CEQ) recent report to Congress on Carbon Capture, Utilization and Sequestration and the recently published HuffPost article "The Gassing Of Sartaria" by Dan Zegart.

Pursuant to the Freedom of Information Act, we request copies of any documents or communications created or received by the EPA between June 2020 and August 2021 regarding the following topic areas:

CO2 pipeline routes,
CO2 pipeline health and safety risks to communities,
Environmental justice,
Pipeline construction specifications,
Risk assessment of leaks from CO2 pipelines,
Experiments or modeling of CO2 pipeline accidents,
Potential risks of contamination of the CCUS CO2 waste stream, including hydrogen sulfide and water, and
Emergency response to pipeline accidents and attacks (for example, training and safety of first responders and healthcare workers and warning systems).

Pursuant to the Freedom of Information Act, I hereby request the following records:

A full calendar, schedule and briefing book for Deputy Administrator Janet McCabe.

All communications, including emails and attachments, between Deputy Administrator McCabe and the following organizations and email domains:

Anyone representing the Independent Petroleum Association of America (Please search for the email domain "@ipaa.org")

Anyone representing New Mexico Oil and Gas Association (Please search for the email domain "@nmoga.org")

Anyone from New Mexico's Governors Office, New Mexico Environmental Department or New Mexico Oil Conservation Division (Please search for the email domain "@state.nm.us")

Please search your records from January 20, 2021, to the current date.

I am making this request on behalf of Documented, a media requestor, and I agree to pay all applicable fees.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

EPA-R5-2022-001984	Request	Clint Beccue	IL State Geological Survey	Thank you in advance.	1/19/2022	Processing Tasks

Pursuant to the Freedom of Information Act (FOIA), I hereby request ALL studies related to global warming, climate change, carbon capture, carbon sequestration, renewable energy, alternative energy sources, energy efficiency, et al. that have been submitted to the EPA under the Trump Administration from 20 January 2016 to the present date.

Climate change presents an existential crisis for the human race. The United States of America has already begun feeling the impacts of climate change with a record number of hurricanes last season, wildfires in the American west, record heat, and droughts. The cities of New York and Chicago experienced tornadoes inside city limits in 2020. In spite of these facts, the Trump Administration is moving to seclude and hide studies and information related to climate change.

The nature of this request is to publish the studies for public consumption so that the United States may create a worthwhile and critically essential response to climate change that is worthy of the title, "good enough for government work".

Given the immense public interest of this request, I hereby request fees be waived for this FOIA request. We cannot allow climate deniers to have exclusive control over the scientific excellence this nation promulgates. As the Trump Administration moves forward with its "garbage science" standard and given the current state of the climate emergency here on US soils and seas, I am requesting an expedited processing of this request. Should you have any questions regarding this request, please feel free to contact me via e-mail or telephone.

I am requesting all communications between certain EPA officials and representatives of the Boeing Company. The EPA officials are Administrator Andrew Wheeler, Principal Deputy Assistant Administrator for the Office of Air and Radiation Anne Idsal, Office of Transportation and Air Quality Director Sarah Dunham, and William "Bill" Charmley of the Office of Transportation and Air Quality. Please consider Boeing representatives as anyone with an email address ending in "@boeing.com." The time period for the search is May 1, 2020 to the present.

This is a request under the Freedom of Information Act.

I request that a copy of documents containing the following information be provided to me:

-Warning letters, Notice of Violations, field citations, enforcement actions, settlements, and compliance orders involving the BASF plant (once known as the Henkel, Cognis plant) in Mauldin, SC.

-Warning letters, Notice of Violations, field citations, enforcement actions, settlements, and compliance orders involving the BASF plant in Spartanburg, SC.

-Warning letters, Notice of Violations, field citations, enforcement actions, settlements, and compliance orders involving the BASF plant in Seneca, SC.

I am willing to pay fees for this request up to a maximum of \$100. If you estimate that the fees will exceed this limit, please inform me first.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the activities of the government's effort to control air pollution and is not primarily in my commercial interest.

Thank you for your consideration of this request.

Sincerely,

Max Blau

Re: Freedom of Information Act Request

Dear Sirs or Madams:

This is a request under the Freedom of Information Act, 5 U.S.C. Â§ 552. The time frame for the request is from November 18, 2011 to the present. We respectfully request that the U.S. Environmental Protection Agency (â€œEPAâ€) provide electronic copies of the following documents as promptly as possible:

1. All documents evidencing communications between the EPA and the California Air Resources Board (â€œCARBâ€) regarding CARBâ€™s issuance of a letter dated June 10, 2020 (Reference No. ADORS-20-015) (â€œFirst Letterâ€) to EZ Lynk SEZC (â€œEZ Lynkâ€) and CARBâ€™s subsequent withdrawal and rescission of the First Letter via letter dated August 24, 2021 (Reference No. ADORS-21-005) (â€œSecond Letterâ€). Such documents should include, without limitation:

- a. All documents evidencing the time, date, manner of each communication;
- b. All documents evidencing the participants (and their affiliations) in each such communication; and

Evaluation of Records

Good morning,
 I had submitted a FOIA request to USACE and on January 7, 2022 they responded that they processed a referral with you and that you would respond directly to me with the information and analysis/reports in regards to:
 SAJ-1993-50134, Luquillo Hotel, Luquillo Fun Park, Mata de Platano Ward.
 Catastro # 23-092-000-007-04-000
 I wanted to follow up with you and find out when I could expect to receive the FOIA request.

The information they provided for the referral was:
 Ms. Luann Gross
 U.S. Environmental Protection Agency
 Region 4 Freedom of Information
 SNAFC Bldg, 61 Forsyth Street., S.W., 9th Flr
 Atlanta, GA 30303-8960
 (404) 562-9642
 FAX (404) 562-8054
 Email: r4foia@epa.gov

However that email does not work. In addition, my understanding is that PR is part of Region 2.

Many thanks,

I am working on a Phase I Environmental Site Assessment of the Venue Tower Apartments located in Grand Rapids, MI and have identified the following state-regulated facility as a potential Recognized Environmental Condition (REC) and/or Vapor Encroachment Condition (VEC):

Facility Name: 16 Monroe Center Street
 Property Address: 16 Monroe Center Street Northeast, Grand Rapids, MI 49503
 Record Type: US BROWNFIELDS
 Acres Property ID: 158270

Additional facility details are provided on the attached Site Detail Report.

I would like to request a copy of your public records available specific to the facility listed above. If possible, please provide the following information in your response.

1. Estimated cost to receive a copy of the files
2. Estimated timing for receipt of files
3. Estimated size of files (such as number of pages, number of boxes, or an index of documents)
4. Contact information for the individual that will be coordinating my request
5. Any agency specific information that will impact my request (i.e. copies must be made in person, files will be sent electronically, etc.) I am looking for environmental assessment documents and/or any documents related to testing, remediation, or closure. According to EDR, it looks like there should be a Supplemental Assessment Report that was completed for the property on June 25, 2012 and a Phase I ESA, completed on August 13, 2012.

Thank you for your assistance with my request.

EPA-2021-001204	Request	Ms. Kelsey Brugger	E&E News	September 1, 2020 to the present time. Advanced Biocide Technologies (ABT) is greatly concerned that a former contractor, Ms. Jacqueline Kemper, is and has used the ABT EPA Registration Number 91399-2 [Biotab7] to sell/distribute similar products without consent. ABT is initiating legal action against Ms. Kemper for serious claims including fraud. Upon accessing the CDX portal account for ABT, I noticed under the Package Status section, that packages were submitted in 2019. ABT has no records of such submissions. Furthermore, I have been unable to view the packages since Ms. Kemper, who had originally registered the CDX account for ABT, retained the ABT account passwords when she was terminated. ABT requests the following: (1) digital and hard copies of any and all documents submitted to, or sent from EPA, from initiation to present for the ABT CDX Account; (2) Any CDX account established or accessed by Ms. Kemper or others that references ABT EPA Registration Number 91399-2; (3) Change any passwords created by anyone other than myself for the ABT CDX account; (4) Remove Ms. Kemper's name and contact information from any documentation of ABT or the Biotab7 product; (5) Provide digital and hard copy documentation of all access history for Ms. Kemper to the ABT CDX account and any accounts referencing ABT EPA Registration Number 91399-2.	12/1/2020	Processing Tasks

EPA-R10-2022-001402	Request	Mr. Stephen M. Packman	Archer & Greiner P.C.	Over the course of the last 20 years or so, lead has been removed from electronic components and assemblies. This has resulted in a considerable loss-of-life and other environmental impact; the University of Stuttgart did an overall environmental impact assessment of tin/lead and various commonly used lead-free replacements, evaluating multiple factors on a cradle-to-grave basis. Tin/lead was far and away the best for the environment. Lead-free tin solders and platings have caused the sudden unintended acceleration incidents that occurred in many popular makes of cars (e.g., runaway Toyotas) ***and killed many people***; these have been well-publicized . There are other verified instances where the lead-free material has resulted in widespread electronic failures ranging from heart pacemakers to runaway nuclear reactors to satellite failures to missile systems and other Defense electronics. Where is the Environmental Impact Report (EIR) or Environmental Impact Assessment) that was supposed to be done before removing lead from electronics, and producing only Lead-Free electronics? Absent such an EIR or EIA, further loss-of-life may continue, and our National security may be placed at further risk by the degraded reliability of its materials containing electronics.	12/10/2021	Research Records

Could I please receive documents relating to the registration of the Spartan Mosquito Bomb and/or Spartan Mosquito Eradicator? I'm not positive if the device was submitted for registration, but the company said at one point that it was awaiting EPA approval. At the time it made the claim the active ingredient was boric acid. I'm curious whether there is any documentation of a submission, plus any records relating to such submission. This request does not encompass any information that may be entitled to confidential treatment, or that otherwise may be exempt from disclosure under FOIA.

Hello,
 My farm was drifted with pesticide on 8/3/21 at 10551 Higgins Lane in Spearfish, SD 57783. The state completed an investigation under South Dakota DANR department case #21JK080404. I also notified the EPA when this happened via the online submission process.

Could I please get all documents pertaining to South Dakota Department of Agriculture and Natural Resources case #21JK080404 - especially the final findings and any action taken by the department?

If the processing fees are above \$300.00, could you please contact me? I may be able to come up with a little more.
 Thank you for your time!

				There are a number of published books on human reproductive toxicology and developmental toxicology. Does EPA publish such information with specific effects on human brain and cognitive development? Not all above mentioned books either concentrate on that particular effect or include it at all. To give you an idea of what type of information I am looking for, one such book is Reproductive and Developmental Toxicology edited by Ramesh Gupta but the book goes quite a bit off the topic I am interested in which is why I am asking your agency, however it does cover the range of influences I am seeking. 				Regarding Unpaid FTCA Claims resulting from the Gold King Mine Spill of August5, 2015: ** I understand that if a claimant is also involved in litigation against EPA, the FTCA claim may be null and void. Still, I believe there are 77 unpaid claims still outstanding. I am requesting access to the file containing who filed claims for lost revenue when the Animas and San Juan Rivers river was closed in August of 2015, and the amounts they claimed through the Federal Tort Claims Act? I recognize that names of businesses and individuals may be redacted, however, the city/town in which they operate, as well as the industry they are involved in, along with the dollar amount of the claims they are seeking should all be visible to me. August 2015, then Administrator McCarthy told business owners to file claim forms for lost business revenue, pointing them to a form associated with the Federal Tort Claims Act. January 2017, Obama Administrations EPA attorneys interpreted the FTCA to mean they were responders, acting in a discretionary role, and therefore were not allowed to pay the claims. (To be clear, if a private sector firm caused that mine release in the same way the EPA caused that mine release, those claims would have to be paid.) August 2017, Administrator Pruitt sends a letter to claimants, explaining that he would like these claims to be reviewed. To my knowledge, claims remain unpaid, as of January of 2022.		
EPA-2022-001871	Request	Thomas Schillaci		At this time, I am only seeking access to the list of unpaid claims, and the amounts still outstanding.	1/11/2022	Processing Tasks

Assignment Determination

A few months ago, a colleague assembled a bibliography of documents available online in EPA's Harbor Island East Waterway OU portal. I just tried to download three of these documents, and they seem to have disappeared from the portal, along with a number of other documents.

The three documents of interest to me right now are: (1) 11/01/2010 Final East Waterway Operable Unit SRI/FS Data Report: Subsurface Sediment Sampling for Chemical Analyses. (1879 pp, 169.42 MB) (Windward Environmental, LLC); (2) 09/01/2010 Data Report: Final Surface Sediment Sampling for Chemical Analyses and Toxicity Testing for the Supplemental Remedial Investigation/Feasibility Study of the East Waterway Operable Unit. (2307 pp, 205.88 MB) (Windward Environmental, LLC) ; and (3) 12/01/2009 Final Initial Source Evaluation and Data Gaps Memorandum for the East Waterway SRI/FS. (891 pp, 31.21 MB) (Windward Environmental, LLC and Anchor QEA, LLC).

Can you help me find copies of these? In an ideal world, I'd rather have a spreadsheet of the analytical data (instead of the pdfs), but even the pdfs will be helpful.

EPA-R10-2021-006471	Request	Mike Caputo		I am looking for any documentation that EPA and EPA Region 3 might have regarding correspondence between EPA Region 3 and Cooper Industries of Syracuse NY, also known as Crouse-Hinds Company, and now Eaton (collectively CCH) in the matter of the Butler Tunnel Site in Luzerne County Pennsylvania. In 1994 Gary Morton of EPA Region 3 contacted CCH regarding one of CCH's waste removal contractors, Northeast Oil Services Co. who may have deposited waste at the Butler Tunnel Site. Region 3 requested records of products containing polychlorinated biphenyl at Crouse Hinds of Syracuse and conducted an interview with former employee, Raymond Black. We are seeking any documentation of this interview, and any records headquarters or Region 3 might have in regard to Northeast Oil Services Co. and the Butler Mine Tunnel Site as well as any correspondence or shared documents with CCH in the matter. EPA-R5-2022-001876	Request	Dr. Jim P Van Keuren	Author	I am doing research on the Active and Archived Superfund sites in community where I live. I am interested in the full reports that show if any remediation was done and the reasons for conclusions that were reached at each site. In Active reports the question remains why are those sites still active? Hopefully the sites reports will have beginning and ending dates. 1. I am doing research on alleged Superfund sites that were once in my community of Brook Park, Ohio, plus I am interested in what the preliminary and final assessments said and if it at any time there was clean-up action taken. 2. Why were some of the assessments never completed as was the case for Brook Park and Continental Water Systems? 3. In the write ups -what prompted assessments to begin with " who triggered them? 4. What is happening with the 2 Active projects? 5. What I am looking for is a full report that includes beginning and end date: Preliminary Assessment -----Site Inspection-----Results 6. Finally, I want to answer the following question for each site: What were the reasons that the EPA believed the sites pose or had once posed a potential risk to human health and/or the environment due to contamination by one or more hazardous wastes?	1/12/2022	Processing Tasks

Pursuant to the Freedom of Information Act, I hereby request the followingâ€”

Any completed or official assessments, findings, investigations, reports, or studies involving the United States Navy's Joint Base Pearl Harbor-Hickam and contamination of the Red Hill well in Oahu as well as threats of pollution to the Halawa Shaft. Such assessments, findings, investigation, or studies may have been completed between the time period of January 1, 2011, and November 1, 2021, and involve petroleum or fuel leaks.

The Hawaii Department of Health has cited Joint Base Pearl Harbor-Hickam for violations related to operation and maintenance of the facility multiple times. Upon information and belief, the Environmental Protection Agency may have examined the Health Department's allegations and claims, including Notices of Violation and Order, or NOVOs, involving the Red Hill Fuel Storage Facility (RHBFSF).

On December 5, 2021, CNN reported, "Records show a history of fuel leaks plaguing Joint Base Pearl Harbor-Hickam in the past decade, with the most recent leak occurring 11 days before the Navy announced it had discovered contamination in the Red Hill well on Oahu." (The media organization was referring to a leak in late November when they mentioned the "most recent leak.")

"The deputy commander of the U.S. Pacific Fleet. Rear Adm. Blake Converse, confirmed a petroleum leak is the cause of the latest breach," according to the CNN report.

In October 2021, the Hawaii Department of Health released a copy of a NOVO from the Solid and Hazardous Waste Branch. It listed violations that stemmed from failures and mismanagement at the underground storage tank system located at Red Hill/Pearl Harbor-Hickam on Oahu. This is also referred to as the fuel storage facility.

I would like to request records related to LUST ID: NC19770; 231 PIEDMONT DRIVE, HILLSBOROUGH, NC; Specially, records related to the nature of the release, cleanup documentation, and current regulatory status.

I hereby request copies of the following records: all electronic correspondence, whether email, text, SMS, etc., and any accompanying information, including also any attachments, a) sent to or from or which copies (whether as cc: or bcc:) i) Cassidy.Allison@epa.gov, ii) Katims.Casey@epa.gov and/or iii) Adhar.Radha@epa.gov, that b) was also sent to or from or which copies (again,whether as cc: or bcc:) i) SlaughterJ@SEC.gov, ii) khannas@SEC.gov, iii) CoatesJo@SEC.gov, iv) mishrad@SEC.gov and/or v) WyattK@SEC.gov, and d) is dated January 21, 2021 through the date you process this request, inclusive.

I am looking to find my hospitals EPA number. I work for United Memorial Medical Center Batavia, NY 14020. I am the Facilities Director.

Hello.

I am conducting a Phase I Environmental Site Assessment of the former Crown City Plating Company facility at 4350 Temple City Boulevard in El Monte, California and would like to request access to files associated with the facility. The facility has reportedly been identified as part of the El Monte Operable Unit of the San Gabriel Valley Superfund Site. The listed address is the main address associated with the property. Historical addresses associated with the property include 4303, 4305, 4307, 4309, 4311, 4313, 4315, and 4319 Rowland Avenue, El Monte, CA.

If you have any questions or need additional information, please let me know.

Thank you for your help!

EPA-2022-001163	Request	Dr. John Wheeler		We are requesting all of the information that was submitted in Part II Section B. Technical Contact Information of every Form U that was submitted for the USEPA's TSCA 2020 Chemical Data Reporting Rule (CDR Rule). In other words, from every Form U that was submitted in connection with the 2020 TSCA Chemical Data Reporting Rule, please supply us with all of the information that was entered in Part II Section B. Technical Contact Information. This information is preferably supplied to us in Excel format. We are not requesting any other information from the submitted Forms U, nor are we requesting any Confidential Business Information. This information was previously approved by EPA for FOIA release, and was supplied to us for the 2012 CDR via FOIA Tracking Number EPA-HQ-2013-010253. Also, this same information was supplied to us for the 2016 CDR via FOIA Tracking Number EPA-HQ-2017-009811. Therefore, there should be no problem in providing us with the same info for the 2020 CDR which is now being requested. This information should be easily retrievable from EPA's TSCA Form U submissions database. If there is any question as to the information that we are requesting, please do not hesitate to contact us. Thank you.	11/29/2021	Research Records

RE: FREEDOM OF INFORMATION ACT REQUEST

Dear FOIA Officer:

Pursuant to the provisions of the Freedom of Information Act (5 U.S.C. Â§ 552) (FOIA), Taylor Research Group LLC (TRG) requests access to or copies of any and all documents, which are in the possession, custody, or control of the United States Environmental Protection Agency (EPA) Region II pertaining to Phelps Dodge Refining Corporation (PDRC) and its predecessor companies (G.H. Nichols Co., Nichols Copper Co., Nichols Chemical Co., General Chemical Co., Allied Chemical and Dye Corp.) located at 42-02 and 42-04 56th Road along Newtown Creek in Queens, New York. These entities operated at this site between the years 1866 and 1984.

TRG is interested in EPA's (and its predecessors') regulatory activity of this site to prevent the pollution of air, ground, groundwater, and/or Newtown Creek (or its tributaries) itself. Responsive documents may include, but are not limited to, the following:

Inter-and intra-agency correspondence as well as direct correspondence with PDRC and its predecessors;

Permits and permit files;

Inspection reports and compliance evaluation records;

Notices of violation, fines, tickets, and/or sanctions and citations that were issued to PDRC and/or its predecessors;

I am requesting any information concerning the action taken against our painting contractor

This request is based on an anonymous source which stated that there was lead contaminating the neighborhood.

Specifically, I am requesting any and all data collected by Environmental Protection Agency employees that concluded people employed by us were in violation of EPA regulations. This request is to include the following.

1. Any tests conducted by the EPA concerning lead contamination from our project.
2. Any and all conclusions made by EPA employees which show that any work done on our property was indeed a violation of existing laws.
3. Any communications made between myself, all other concerned person and or companies and EPA employees.
4. The procedures used to determine fines made against our contractor.
5. Any internal EPA documents, procedures and guidelines used by the Seattle EPA employee in determining the veracity of the "anonymous" complaint.

Thank you

Thomas Sundmacker

I would like to request an exemption due to unemployed at the moment. I would like this information to be mailed to my physical address location or via email: audrasabir@gmail.com.

In late April/early May, my building had contractors removing paint from the exterior of my building by way of electric sanding. The paint landed in my apartment unit, all over my personal property and I was near the location in which sanding was taking place at the time. This lead dust is still present in my unit as of December 22, 2021 and I have put in a complaint several months ago and would like to get any information I am able to get, including the findings, fines, etc. from my initial complaint. The contractors were not EPA certified according to the representative I spoke to at the time, my windows were not covered during the time the sanding took place, and I was not notified beforehand of the work. This work was done on the exterior of my building and I believe others in my building and anyone who may have around the building may have been affected from this lead dust. The building is located at: 510 S. Spring Street, Los Angeles, CA. 90013. The name of the building is: The Lofts at the Security Building. In addition to the lead dust, I was informed by an agency AQMD, that if the windows had putty on them, there may also be an asbestos issue. This concerns me, as my health and the health of others could be at stake.

I work as a Scientific Review Officer for GDIT. The professional name I use at GDIT is Shannon Williamson (maiden name). In order to facilitate the scientific peer review process for the EPA, I was required to undergo a background check. After answering the questions for the background check electronically (approximately April, 2021), I was contacted by an investigator that was assigned to my case asking for a Zoom interview to further discuss one of my answers regarding an employment termination within the last 7 years. I participated in 2 Zoom meetings with the investigator to discuss this matter. I am submitting this FOIA request to learn the outcome of the investigation.

I am requesting any and all documents related to my background investigation from the date of the first Zoom meeting I participated in with the investigator (approximately July/August timeframe, but could have been earlier) through the final decision made by the EPA regarding my clearance to work or not work on EPA-related projects. Please let me know if you need me to clarify anything related to this request.

Sincerely,

I would like to request the most comprehensive nationwide version of the Polychlorinated Biphenyls (PCB) Transformer Registration Database (to include current and historical sites, as far as PCB transformer registrations date back) for all ten EPA Regions in Excel format. My review of a prior submitted/released FOIA - Request Number EPA-HQ-2016-000844 - the excel file released for this FOIA request would be the ideal format for this request. Review of that 2016 Released Excel file revealed the following fields were included for the 3643 records at that time: RECORD ID, DOCUMENT NUMBER, COMPANY, STREET, CITY, STATE, ZIP, CONT_NAME, CONT_PHONE, ASSIGNED TRANS LOCATION ID, TRANSFORMER BOX NUMBER, SITE, TRANS_STR, TRANS_CITY, TRANS_STATE, COMPLETE_TRANS_ZIP, TRANS_ZIP_FIRST_5, NO_TRANSFORMERS, WT_LB, WT_KG, FLAMMABLE, NAME_OFF, TITLE_OFF, DATE_SIGNED, REGION. Can I please request the same format and same fields for the PCB Transformer Registration Database to include current and historical sites/records for all EPA Regions? If you could please let me know in advance if the associated fees will exceed \$25.00, as well as let me know the years/time span of registered sites that will be publicly available for this request. Pursuant to the Freedom of Information Act, I hereby request the following records:

A full calendar, schedule and briefing book for Administrator Michael Stanley Regan. Please search your records from November 5, 2021 to the current date.

I am requesting a waiver of fees incurred by the agency. The disclosure of information that I am seeking is in the public interest because it will contribute significantly to public understanding of operations and activities of the government and I have no commercial interest in the requested material. As the EPA develops new environmental regulations and emission standards, it is critical that there be transparency around EPA meetings and communications with non-governmental interested parties.

The request concerns the operations or activities of the government. The topic of the request concerns the activities of the government, including creating policy and passing regulations that impact the health and safety of the public. The requested materials will shed light on the activities of the EPA during a time when a relatively new administration is taking on ambitious environmental regulations.

Disclosure is likely to contribute to an understanding of government operations or activities. The information requested includes calendars of an EPA official during a period in which the EPA is working to develop and set new environmental regulations and emissions standards. Disclosure of the requested information is likely to contribute significantly to public understanding of the EPA's operations because the information requested will shed light on who EPA officials are meeting with, including government and non-government officials, and in turn, help the public understand what topics and stakeholders the EPA is considering during this time. With this information, the public will be better able to provide comment and otherwise participate in the regulatory process.

Pursuant to the Freedom of Information Act, I request the following records

3. The most recent communication sent from the EPA to the complainants for all Title VI complaints that remain open from January 2013 to the date that this FOIA is fulfilled;

Note I am requesting these records be provided electronically in a machine-readable format. Please provide the documents as they become available, on a rolling basis. I am requesting that you waive all applicable fees associated with this request because release of this information is in the public interest, as it will contribute significantly to public understanding of government operations and activities. As a reporter that has published with multiple news outlets including The Marshall Project, USAToday and MotherJones, I am making this request as a member of the media. This request is not for commercial use. If you deny this request for a fee waiver, please advise me in advance of the estimated charges associated with fulfilling this request. Please send me a detailed and itemized explanation of those charges. If access to the records I am requesting will take longer than the time allotted by law, please contact me. In the interest of expediency, and to minimize the research and/or duplication burden on your staff, please send records electronically if possible. If this is not possible, please notify me before sending to the address listed. Since time is a factor, please communicate with me by telephone or this email address. I can be reached at 646-468-6115.

United States Environmental Protection Agency

To the Open Records Officer:

Pursuant to the federal Freedom of Information Act, I write on behalf of the Society of Professional Journalists to request a copy of the following public records from the United States Environmental Protection Agency:

â—All policies, rules, handbooks, rules, briefing statements, written guidance or other directives (collectively, â€œagency materialsâ€) related to the agencyâ€™s employees communicating with the news media

â—The requested agency materials include, without limitation, any agency document that gives directions or rules on:

1. employee responses to media inquiries including requests for interviews or information;
2. employees speaking or corresponding with the media;
3. employees giving statements, commenting, or releasing facts to the media

However, we are not asking for emails or other correspondence that occur at the time a journalist requests contact with employees.

We request a waiver of all fees for this. Disclosure of the requested information to us is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in our commercial interest. SPJ plans to issue a report on the policies of a range of agencies.

If any of the documents requested exist in electronic format, I request they be provided in electronic form.

If this records request is denied, in whole or in part, please provide me with the section of the Act on which the denial or redaction is based. In cases where a portion of the document(s) is exempt, please redact that portion and release the remainder.

I look forward to your response no later than three working days from today. Please do not hesitate to contact me if you need clarification or can suggest an easier way for me to get the information I am requesting. Thank you for your assistance.

Sincerely,

Republic Steel
3049 Lakeshore Road
Blasdell, NY 14219

Pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, the Defend Them All Foundation (â€œDTAâ€) respectfully requests copies of records held by the Environmental Protection Agency (â€œEPAâ€) pertaining to rodenticide products proposed for use in eradicating and controlling rodents on islands including the proposed USFWS South Farallon Islands Invasive House Mouse Eradication Project (â€œFarallon Islands Projectâ€).

The Farallon Islands Project involves a proposal to disperse approximately 3,500 lbs (1.45 tons) of Brodifacoum-infused bait with two aerial applications in a treasured biodiversity hotspot. The area is nationally recognized for its important breeding and feeding areas as well as home for many endangered or threatened species. Furthermore, it is known to host uniquely productive marine ecosystems that attract marine broad biota from zooplankton to krill, fish, marine mammals, and other aquatic and semi-aquatic species. In addition to biological sensitivity, the steep cliffs, rugged terrain, and portions of inaccessibility render bait delivery, mitigation, and minimizing bait drift particularly complex.

In an effort to understand the risks of the product selected for the Farallon Islands Project, the factual basis for the EPAâ€™s decision to proceed with registration of rodenticide products for this purpose, and to ensure our ability to assess mitigation and monitoring measures currently in development, we respectfully request the following documents:

From January 1, 2007, to the date of processing this request, all records that discuss or describe vertebrate control products proposed and/or approved for use on islands for conservation purposes, including but not limited to Brodifacoum, Diphacinone, Strychnine, and Zinc Phosphide;

EPA-R9-2022-001946	Request	Lindsey Zehel	The Defend Them All Foundation (Portland, OR)	From January 1, 2007, to the date of processing this request, all internal records received or generated by EPA staff member(s) that discuss or describe Brodifacoum-25D Conservation, please provide us with the following records. The time period covered by these requests is June 22, 2016 onward. 1) Documents prepared by EPA (or its contractors or agents), in connection with PMNs submitted to EPA pursuant to 15 U.S.C. Â§ 2604(a) â€ including but not limited to draft or final Structure and Activity Team Reports, Chemistry Reports, Engineering Reports, Exposure Reports, Hazard Reports, Focus Reports, Risk Assessments, Briefing Papers, or Regulatory Determinations/Decision Documents â€ that were shared with the PMN submitter (or its lawyers, representatives, consultants, agents or delegates), in whole or in part, before a final determination was made on the PMN. 2) Records reflecting communications between EPA, or its contractors or agents, and the PMN submitter (or its lawyers, representatives, consultants, agents or delegates) related to the draft documents identified in item (1), above, including but not limited to summaries or notes of conversations and meetings, including telephone logs Please see attached letter regarding Schnitzer facilities in Puerto Rico.	1/18/2022	Processing Tasks

This is a request for additional documents for the continuation of project that previously received many Monsanto documents for evaluating safety of the herbicide glyphosate. It is now felt that Monsanto may have intentionally defrauded the EPA on the safety of glyphosate and its bioaccumulation. Monsanto claimed that glyphosate only affected plant enzymes and did not bioaccumulate. However, I have found through laboratory analysis and experimentation that these claims by Monsanto-BAYER may not to be true and that in fact glyphosate may actually accumulate in humans and disrupt many human enzymes.

Thus this request for additional documents which was made to Janet Bressant by email on December 10, 2021.

EPA-2022-001892 Request Mr. Andrew Calderon

1/12/2022

Processing Tasks

Pursuant to the Freedom of Information Act, I request the following records

2. All resolution letters for Title VI complaints sent by the EPA between January 2013 and through to the date this FOIA is fulfilled.

Note I am requesting these records be provided electronically in a machine-readable format. Please provide the documents as they become available, on a rolling basis. I am requesting that you waive all applicable fees associated with this request because release of this information is in the public interest, as it will contribute significantly to public understanding of government operations and activities. As a reporter that has published with multiple news outlets including The Marshall Project, USAToday and MotherJones, I am making this request as a member of the media. This request is not for commercial use. If you deny this request for a fee waiver, please advise me in advance of the estimated charges associated with fulfilling this request. Please send me a detailed and itemized explanation of those charges. If access to the records I am requesting will take longer than the time allotted by law, please contact me. In the interest of expediency, and to minimize the research and/or duplication burden on your staff, please send records electronically if possible. If this is not possible, please notify me before sending to the address listed. Since time is a factor, please communicate with me by telephone or this email address. I can be reached at 646-468-6115.

EPA-2022-001894	Request	Mr. Andrew Calderon		I request all documents detailing Acting Assistant Administrator of the Office of Air and Radiation Joseph Goffman's schedule from Nov. 1 through Nov. 30, 2021. I request that a copy of the following documents be provided to me:
 • National usage data for 4-aminopyridine, commercial name Avitrol
 • National usage data for other EPA-approved avicides, including DRC 1339, or Starlicide
 • Any emails, official reported complaints, or reported environmental violations involving Avitrol, avicide, or 4-aminopyridine
 • Any emails, official reported complaints, or reported environmental violations involving Starlicide, avicide, or DRC 1339

I request a waiver of all fees for this request. I am a reporter for National Geographic, and this request is made as part of news gathering. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest.

I request that the information I seek be provided in electronic format.

I also ask that my request receive expedited processing. It is urgent to inform the public regarding activity surrounding Avitrol, especially given the fact that it is currently undergoing registration review.

I can be reached by phone at 714-307-0229 or by email at rachel.fobar@natgeo.com. Thank you for your prompt consideration of this request.

Sincerely,

Rachel Fobar

process privilege (â€œDPPâ€) under the supervision of Professor Nicholas Parrillo. I am submitting this request under the Freedom of Information Act, 5 U.S.C. Â§ 552 et seq (â€œFOIAâ€) for records that will inform the public about federal agenciesâ€™ use of the DPP in response to FOIA requests.

I intend to use the responsive records in a paper that will be the first to compare the content of documents withheld under the DPP with agenciesâ€™ rationales for withholding them. The mechanism making this research possible is the sunset provision on the DPP passed in the FOIA Improvement Act of 2016, 5 U.S.C. Â§ 552(b)(5), which prohibits use of the DPP to shield documents from FOIA requests if they were created 25 years or more before the date on which the records were requested. All the records requested below were the subject of litigation occurring before October 31, 1996, and so were certainly created 25 years or more ago.

Documents Requested:

Please provide me within 20 business days, via email to the email address listed below, copies of the following records:

1. All documents withheld under the DPP by the EPA, and all documents in which it explains its rationales for withholding under the DPP (e.g., the original FOIA request and response, the briefs in the case), in response to all FOIA requests at issue in the following cases:

- a. *U.S. v. Allsteel, Inc.*, No. 87 C 4638, 1988 WL 139361 (N.D. Ill. Dec. 21, 1988).
- b. *Montrose Chemical Corp. of California v. Train*, 491 F.2d 63 (D.C. Cir. 1974).
- c. *Chemcentral/Grand Rapids Corp. v. U.S. E.P.A.*, No. 91 C 4380, 1992 WL 281322 (N.D. Ill. Oct. 6, 1992); *Chemcentral/Grand Rapids Corp. v. U.S. E.P.A.*, No. 91 C 4380, 1992 WL 724965 (N. D. Ill. Aug. 20, 1992).

Re: FOIA REQUEST in reference to Proposed Method of Air Sampling Program for Denka Performance Elastomers, LLC at the Pontchartrain Works Facility in LaPlace, Louisiana

To Whom It May Concern:

Pursuant to the Freedom of Information Act (FOIA), I am requesting an opportunity to inspect or obtain copies of the items listed below. This request is limited in scope from January 1, 2020 to Present.

Any and all documents listing the method references for the proposed upcoming air sampling and testing campaign at Denka Performance Elastomers at the Pontchartrain Works Facility in LaPlace, Louisiana, including, but not limited to, the United States Environmental Protection Agency's (EPA's) / other accepted method number for each component of the air sampling program, as well as the EPA's / other accepted method number for each proposed analysis. Please include the method name and description, as well as the EPA / other agency online reference link if known.

A complete .pdf version of the sampling or analytical method, if available in lieu of an online link. If an online link is all that is available, that will suffice.

EPA-R6-2022-001963	Request	Brian Mersman	The Lambert Firm, PLC	Any and all documents fully outlining any alterations made to a sampling or analytical The subject of this request is EPA Reg. No. 524-500 (currently 59639-223), sulfosulfuron. I am requesting the following: (i) a copy of the registrant's proposed herbicide label that was attached to the November 14, 2008 application to Amend the Master Label for EPA Reg. No. 524-500 (Maverick and Outrider Herbicides). This was the subject of a previous request, but the registrant's proposed label was not provided; and (ii) a copy of the registrant's application to Amend the Master Label (as opposed to a Supplemental Label) which the Agency accepted on April 2, 2008, including the registrant's proposed label, and related application attachments. Please see attached letters.	1/18/2022	Processing Tasks

Re: Freedom of Information Act Request

Dear Freedom of Information Officer:

I am Algis Silas, a professional researcher who has a non-profit client, which is interested in the following information. Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. Â§ 552, Algis Silas requests that the U.S. Environmental Protection Agency produce schedules, itineraries, and reimbursements for EPA Administrator Michael Regan between August 16, 2021 and August 21, 2021, within twenty (20) business days:

If any responsive record or portion thereof is claimed to be exempt from production under FOIA, please provide sufficient identifying information with respect to each allegedly exempt record or portion thereof to allow us to assess the propriety of the claimed exemption. Vaughn v. Rosen 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1974). In addition, any reasonably segregable portion of a responsive record must be provided, after redaction of any allegedly exempt material. 5 U.S.C. Â§ 552(b).

For purposes of this request, the term "record" shall mean:

any written, printed, or typed material of any kind, including without limitation all correspondence, memoranda, notes, messages, letters, cards, facsimiles, papers, forms, telephone, messages, diaries, schedules, calendars, chronological data, minutes, books,

The time period for this request will be from January 20, 2021 to the date of the search.

Custodians:

- â€¢ Political staff within the Administrator's Office;
- â€¢ Anyone within the Office of General Counsel involved in the subject of records retention or the FOIA within the Agency that had discussions on policy, guidance, or use of encrypted messaging applications;
- â€¢ Anyone within the Office of Air and Radiation involved in the subject of records retention or the FOIA within the Agency that had discussions on policy, guidance, or use of encrypted messaging applications;
- â€¢ Discussions on policy, guidance, or use of encrypted messaging applications with EPA's Chief Information Officer; and
- â€¢ Discussions on the development of records retention policy or guidance about encrypted messaging applications with the Chief Information Officer's staff.

Subject matter or types of records:

- â€¢ Legal or policy recommendations on use of encrypted messaging applications by Agency staff;
- â€¢ Policy guidance on the use of encrypted messaging by Agency staff;
- â€¢ Discussions on the use of encrypted messaging by Agency staff; and
- â€¢ Congressional inquiries on use of encrypted messaging applications in the Agency.

Dear Sir or Madam,

Hope you're doing well and staying safe.

This is Emily Tian from REACH24H USA Inc. Recently we plan to apply for a pesticide registration to EPA. The actives substances are L glufosinate ammonium (PC code: 128300) and Glufosinate-P (PC code: 128812) .

Could you please sent us the data matrix documents for the following pesticide application so that we can know which data we should cite?

1. AGRIMETIS, LLC (company number: 93778) for L glufosinate ammonium (PC code: 128300)

2. MEIJI SEIKA PHARMA CO., LTD (company number: 94609) for Glufosinate-P (PC code: 128812)

Appreciate hearing from you. Thank you very much for your help.

Kind regards,
Emily

I am doing due diligence on a property downhill from this property and need to determine if there is potential for off-site impacts. The due diligence period ends on Jan 31, so if there is any way to get any information this week it would be really appreciated. If there is an affiliated project manager I could speak to, in the event of limited file access, that also would help.

Final Preparation of Response

Good morning,

On behalf of STORE Capital, Trileaf Corporation is conducting a Phase I Environmental Site Assessment on a property located in Titusville, FL. During my research, I've discovered nearby sites of concern, which I would like to request records for, located at:

The Laundry Basket
728 Cheney Highway, Titusville, Florida 32780
EPA ID : FLR000059865

To complete this process, we must conduct a brief records review with a local government representative in regards to any previous environmental conditions (petroleum spills, hazardous waste, etc.) or emergency responses to the property. Specific records we are looking for include, but are not limited to, the following:

- Emergency responses related to hazardous waste cleanup (non-medical emergencies)
- " closure reports and soil or groundwater sampling reports
- Inspection reports
- Reports of groundwater and/or soil contamination
- Complaints from the public
- Storage tank closure reports and/or site assessments

If you have any questions or concerns, please feel free to contact me.
